

---

Diabetes is New Zealand's fastest growing long-term medical condition. Type 2 diabetes is projected to increase by 70-90% in the next 20 years, but can be prevented with early action.

## WORKPLACE DIABETES SERVICE

DELIVERING DIABETES EDUCATION AND TESTING  
TO YOUR WORKFORCE, AT YOUR WORKPLACE.

---

Diabetes NZ offers a range of options for Workplace Diabetes Education.

### CULTURALLY APPROPRIATE, INTERESTING, AND EASY-TO-UNDERSTAND DIABETES EDUCATION SESSION

- What is diabetes? Symptoms, complications and how to prevent or manage diabetes
- Easy-to-understand educational resources for participants to take away

Sessions can be 30 or 60 minutes.

Where possible, we recommend the full session to allow for more discussion and Q&A.

### DIABETES TESTING

- Confidential diabetes testing and discussion with a registered nurse **(10 minutes per employee)**
- Diabetes risk assessment
- HbA1c diabetes finger prick test
- Advice and referral to GP as appropriate
- Workplace Diabetes Report for the employer, providing an overall summary of test results
